

The Stelcolour™ Family of Products

U. S. Steel Canada
A Subsidiary of United States Steel

A Complete Range of Prefinished Products for Every Construction Need

U. S. Steel Canada offers a complete range of Stelcolour™ prefinished sheet steel products for the construction industry. These Series systems have been designed with a variety of strengths to suit the endless array of construction applications. Design features, geographic location and desired performance must all be considered to choose the right Stelcolour product for your particular application. The following table gives a brief introduction to the relative benefits of each system. More detailed information can be found on the Series product sheets.

The Stelcolour Family: A Relative Comparison of Benefits
